Tangara
The Mobile IBM TRIRIGA Solution

Harness the power of IBM TRIRIGA in the palm of your hand.

IBM TRIRIGA is recognized as the best-in-class IWMS solution, providing an integrated workplace management system to increase operational, financial and environmental performance of facilities. IBM TRIRIGA assists in streamlining management activities by maintaining accurate and up-to-date information to help increase productivity and return on investment.

Tangara takes this to the next level by extending your IBM TRIRIGA system to mobile users, further driving productivity, accurate and timely data capture and the better scheduling of resources; Employees no longer need to be tied to their desk-top environment to actively participate in the business process. Whitesmiths has developed a sophisticated iPhone application that delivers seamless integration with IBM TRIRIGA, essential for today's mobile workforce.
